 @ **Sanket3212**   **Sanket KumbhAR**

TECHNICAL SKILLS

- **Languages:** Java, C++, Python
- **Frontend:** JavaScript, HTML, CSS, React js
- **Backend:** Node.js, AWS
- **Database:** mySQL, PostgreSQL

ACADEMIC PROJECTS

❖ **Weather Application**- (Link)

Developed a dynamic Weather Application using HTML, CSS, and JavaScript, incorporating a third-party API for real-time weather data. The project aimed to provide users with accurate and visually appealing weather information

❖ **Billing Management –** (Link)

We have developed a comprehensive Billing Management System using a Java framework with an SQL database backend. The project aimed to streamline and automate the billing processes for enhanced efficiency and accuracy.

Technologies Used:

- Java framework (Specify the framework, e.g., Spring, Hibernate).
- SQL for database design and management.

❖ **Amazon clone**- (Link)

Developed a fully functional Amazon clone website as a personal project, showcasing proficiency in front-end web development using HTML and CSS. The project aimed to replicate the user interface and design of the Amazon e-commerce platform.

EXPERIENCE:

- Internship at Vanillaket on web development (online)

CERTIFICATION

- Goggle certificate and badge in AI & ML and Cloud (Link).
- AWS Cloud Practitioner Certification from GeeksforGeeks.

ACHIEVEMENTS

- Runners up in inter-collage coding event 2022-2023
- Completed NPTEL course on phyton in November 2022
  Percentage=76%

EDUCATION

- Padre Conceicao Collage of Engineering, Verna | Branch: Information Technology |(2021-2025)

CGPA:8.74
